PROFILE SUMMARY

Highly motivated and versatile full stack developer with a background in computer science and engineering. Possessing a strong aptitude for quickly grasping new technologies and effectively applying them to practical projects. Currently pursuing an undergraduate degree in engineering, I am actively seeking an engaging and dynamic work environment that will foster continuous growth and development. Committed to acquiring vital skills and continuously improving expertise in order to contribute to the advancement of both individual and organizational goals in the engineering industry. Eager to be part of a progressive company that values innovation, teamwork, and excellence.

EDUCATION HISTORY

Graduation

Course	B.Tech (Computer Science and Engineering)
College	Lovely Professional University (LPU)
Year of Passing	2025
CGPA	8.26

Class XII

School	Sanskriti Public School (CBSE)
Medium	English
Year of Passing	2020
Grade	86.6%

Class X

School	St. Joseph's School (ICSE)
Medium	English
Year of Passing	2018
Grade	85.4%

PROJECTS

SWIGGY CLONE (SWIGGATO), 2 Months

Swiggato is a web application inspired by the popular food delivery platform Swiggy. This project aimed to recreate the core functionalities of Swiggy while enhancing the user experience and backend management. This project included

- Java Programming: Arrays, Lists, And Structured Data - Coursera
 - Python Basic - HackerRank
 - Java Basic - HackerRank
-

EXTRA-CURRICULAR ACTIVITY

- Coders Combat - GeeksforGeeks LPU
 - 6th VISTAAR (Spinal Cord Injury and rehabilitation Conference)- LPUNSS
 - Blood Donation Camp- LPUNSS
 - Smart India Hackathon
-

HONORS AND REWARDS

- Gold Level Batch- Java, 30 Days of Problem Solving on HackerRank
- Silver Level Batch- C++, Python on HackerRank

a user-friendly frontend designed to attract and engage users effectively.

PASSWORD AND NOTES MANAGER, 1 Months

Password and Notes Manager is a Java based project designed to streamline the users works to save and generate the passwords for them and also to keep the notes of their important works. The project aimed to provide a user-friendly interface which helps all the users to work on it.

VIRTUAL ZOO AND 3D MODEL (ECOHOLO ZOO), 2 Days

This website is an educational website catering primarily to schools and museums. It features a vast collection of 3D models and detailed information about extinct and extant species (flora and fauna). This project not only increased accessibility to educational resources but also fostered an engaging and interactive platform for young learners. I developed his project during 'Smart India Hackathon'.
